

00:13:08 Liza Farr: Liza Farr, with the Rhode Island Division of Statewide Planning, our region's metropolitan planning organization

00:13:16 Anthony Hebert: Anthony Hebert: RI Infrastructure Bank

00:13:31 Isha Gadkari: Isha Gadkari, RI Department of Health, Healthy Eating and Activity Living Program

00:13:51 BRANDT HECKERT: Brandt Heckert Warren Town Council

00:14:05 Wm Hollinshead: Hi. I'm Bill Hollinshead, on the GSRI Board, and Jillian's Main Streets committee, and especially interested in healthy good places for young families to raise thriving kids.

00:14:54 Elizabeth Correia: Elizabeth Correia, RIDOT Cultural Resources Unit

00:15:16 Andy Glines: Hello folks. Andy Glines, site civil group at Fuss & O'Neill.

00:15:16 Kristin Read, she/hers, Warren HEZ-EBCAP: Hi all! Kristin Read, she/hers, Warren HEZ Lead and resident member of Warren Tree Canopy Advisory

00:15:22 Richard Stang, CLF - He/Him: Hello Everyone. Richard Stang, Senior Attorney at Conservation Law Foundation - Providence.

00:16:08 Alexander J. Elton: A. J. Elton, Green Infrastructure Center, RI Community Forester (contracting with RIDEM on their IRA grant)

00:26:12 Margherita Pryor: Margherita Pryor --- U.S. EPA New England project officer and Providence resident 😊

00:29:44 Scott Wolf: Scott Wolf, E.D. Grow Smart RI

00:30:12 Alexander J. Elton: Providence is the only municipality in RI with a 100% dedicated City Forester. Newport, Cranston, and possibly other municipalities have full time positions where some of their responsibilities are trees/forestry but not exclusively.

00:43:24 Jacq Hall: www.groundworkri.org is our website and trees@groundworkri.org is our email if you want to get in touch!

00:55:59 John Flaherty: TOD = Transit-Oriented Development (Train Station)

01:04:17 Molly Henry: DEM is doing the Permavoid pilot project in any community who is interested. You can contact Lou Allard, urban and community forestry coordinator if you are interested. robert.e.allard@dem.ri.gov

01:05:10 Jacq Hall: Reacted to "DEM is doing the Per..." with ❤️

01:05:10 Valerie Southern: Must leave a bit early. Thank you. Informative and helpful!

01:05:18 Molly Henry: mhenry@gicinc.org

01:05:32 Wm Hollinshead: Has anyone done incentives (tax??) for adjacent property owners to plant and support street trees?

01:06:10 John Flaherty: Permavoid

01:10:03 Molly Henry: I would add to Jacq's point that maintenance is soooo incredibly important. If the municipality is doing it's job keeping up on the maintenance it can change perspectives and attitudes towards trees.

01:10:56 Jacq Hall: Reacted to "I would add to Jacq'..." with ❤️

01:12:25 Kristin Read, she/hers, Warren HEZ-EBCAP: Thank you for another great roundtable.

01:17:45 Andy Glines: We (Fuss & O'Neill) have had projects where the private developer has agreed to more trees and wider sidewalks, when the municipality has allowed tree filters in the right-of-way to treat roof runoff from the developers building. The developer paid for the tree filter, and the municipality gets better trees and public access. The maintenance agreement piece needs attention on both ends.

01:19:46 Jacq Hall: I have to go but thanks so much everyone!
